

LTC Series IP+SDI Lecturer Tracking System

Features

- H.264 compression;
- Support dual stream to output both full view and tracking image;
- Compatible with ONVIF, RTSP, RTMP protocols;
- Configuration of the camera is realized by network;
- Come with face and motion detection tracking technology, precisely lock & track lecturer;
- Standalone tracking, there is no need to have extra devices / sensors to assist tracking;
- Both two lens can output up to 1080p30 images through network;
- Small full view lens has addressed geometric distortion;
- Color and brightness of both the two lens are the same (only for LTC-A2001N);
- When tracking, the camera image is automatically adaptive to Lecturer's height;
- There is no limit to tracking zone, the camera can track lecturer all around the classroom;
- Smart tracking performance like auto zoom, tilt motion, free of interfering objects / lights.
