# 4/3 Inch 4KP60 Dual Cam PTZ Camera

# iSmart Video

NDI Dante AV SRT

#### 4/3"CMOS, 20MP

Fitted with a 4/3" CMOS close up sensor and a 1/1.8" CMOS full view sensor, 20 MP close up lens supports high quality broadcast-grade dual-camera output up to 4K P60/P59.94, delivering videos of ultra-high clarity and precise detail reproduction.

#### **PDAF+CDAF**

The combination of PDAF and CDAF focusing technologies enables instant focusing on people/objects in large scenes, at high zoom, and during high-speed movement, ensuring continuous clear image output.

### 20X Optical+Wide-Angle Full View

20x optical zoom, it vividly captures rich details even from far distance. The Wide-Angle Full View can output images and be used to assist Al. Ideal for large-scale program production and live sports broadcasts, its compact design allows seamless adaptation to complex environments

#### **OIS+EIS**

OIS and EIS fit diverse indoor/outdoor scenarios. Even in harsh outdoor conditions, the camera, powered by dual OIS and EIS, ensures steady, high-quality footage during recording.

#### **Dual 12G-SDI Simultaneous Output**

Dual 12G-SDI interfaces(one BNC and one SFP+) enable simultaneous output of two 4KP60 high-quality pictures, meeting broadcast-grade recording needs. High-spec interfaces like GenLock, and Time Code enable professional recording connections and post-production editing.

#### **OLPF**

OLPF technology can reduce and eliminate moiré patterns caused by grids, shutters, and electronic screens during shooting. It can present clear and high-quality images. Even when using an LED screen as the background, it can stably output high-quality footage for film and television production.

#### **ND** Filter

The adjustable ND filter enables users to control the camera's light intake. Even in direct daytime sunlight, it can still output high - quality images. The pre - reserved threaded interface allows direct installation of personalized filters, adding a unique atmosphere to the film.

#### Free-D

The Free-D protocol can be used for AR/VR creation. Ensure seamless integration between virtual elements and real scenes, bringing a highly immersive viewing experience to the audience.

#### Full NDI, (SDVoe, HDBaseT) Optional

Full NDI enables lossless and efficient transmission of 4KP60 UHD video with just a single network cable connection. It also offers SDVoE and HDBaseT options, greatly expanding the camera's scope of application.

## 15+ Years AI Technology Experience

#### **Lecturer Tracking**

Lecturer Tracking includes switching between single cam tracking and dual cam tracking, Everywhere Tracking, selected target tracking, target switch tracking and gesture control etc. It not only significantly enhances the stability of tracking but also can adapt to complicated scenarios.

#### **Auto Framing**

Keep everyone in the picture with multi-person framing. Auto adjust the picture as people enter and leave the area. And it has strong anti-interference ability. With an efficient, and smooth movement, it guarantees high-quality framing result.

#### **Anything Tracking**

You can select any object in the video for tracking. It is not only a breakthrough in tracking technology but also expands the application scenarios of tracking. Any object can be tracked, making tracking a trend and a habit.

# **Diverse Application Scenarios**

Multimedia classrooms and large-scale training sessions.....

Press conferences, large-scale events, and concerts...

Variety shows, sports arenas, and news recording sessions...

## PBC-120F Technical Data 3-1

Model	PBC-120F	
Tracking Camera		
Image Sensor	4/3"CMOS, 20MP	
Max Resolution	4KP60	
Focal Length	f=9.8mm ~ 186mm	
Iris	F2.8~F4.5	
Optical Zoom	20X	
Field of View	Horizontal: 71°~4°; Vertical: 40°~2°; Diagonal: 79°~4.5°	
Digital Zoom	8X	
OLPF	Supported	
ND Filter	Electronic: 1/64, 1/16, 1/4, 1	
Distortion Correction	Supported	
Focusing Mode	PDAF+CDAF	
Full View Camera		
Image Sensor	1/1.8"CMOS, 8.46MP	
Max Resolution	4KP60	
Focal Length	f=4.4mm	
Iris	F2.0	
Field of View	Horizontal: 85°; Vertical: 53°; Diagonal: 93°	
Adjustable Angle	Vertical: ±20°	
Image Parameters		
Image Style	One-key switching among multiple image styles	
DNR	2D & 3D	
Min Illumination	0.5Lux	
Shutter Speed	1/25-1/10,000s	
Gain	Auto, Manual	
White Balance	Auto, Manual, Indoor, Outdoor, Auto Tracking, Static Color Temperature, One push, Follow the Full View	
Backlight Compensation	Supported	
Wide Dynamic Range	Supported	
Exposure Mode	Auto, Manual, Shutter Priority, Brightness Priority, Iris Priority, Auto Tracking, Follow the Full View	
Metering Mode	Top, Bottom, Center, Average, Left, Right	
S/N Ratio	≥50dB	
· · · · · · · · · · · · · · · · · · ·	Image parameters of close up and full views can be adjusted independently	
Color Matrix	Supported	
Image Stabilization	OIS + EIS	
Image Flip	Horizontal mirroring, Vertical flipping	
PTZ		
Horizontal	-170°~+170°; 0.05°~120°/s	
Vertical	-30°~+90°; 0.05°~90°/s	
Software Function		
PIP	Supports picture-in-picture function for both close-up and full views	
	PIP position: top-left, bottom-left, top-right, and bottom-right.	
OSD	Customized overlay of OSD character	
Preset Position Freezing	Supported	
Software Upgrade	1. USB upgrade, supporting Windows and Mac systems.	
	2. WEB upgrade.	

## PBC-120F Technical Data 3-2

Model	PBC-120F	
Powerful AI		
Lecturer Tracking	<ol> <li>Supports everywhere tracking, zone tracking, and selected target tracking</li> <li>Supports two tracking ways: dual cam tracking and single cam tracking</li> <li>Supports adjustable target tracking aspect ratio(Full body, half body, close up)</li> <li>Supports setting the target position of the image (left, middle, right)</li> <li>Supports the setting of blocking areas and preset areas</li> <li>Support switching target and adjustable body size by remote contorl</li> <li>Gesture Control</li> </ol>	
Auto Framing	Multi-person framing (framing within designated zone)	
Anything Tracking	Support people counting  Track any object besides human body	
Interface	Track any object besides human body	
HDMI	1-channel HDMI 2.0  1. Audio: PCM, 48K, dual-channel  2. Color space: YUV/RGB 444 (8bit), YUV 422 (10bit), YUV 420 (8bit) [The default color space is YUV 422 (10bit)]  3. Video resolutions: 3840*2160@60/50/30/25fps; 1920*1080@60/50/30/25fps; 1280*720@60/50/30/25fps  4. i-frame resolutions: 1080i@60/59.94/50fps  5. Broadcast TV resolutions: 3840*2160@59.94/29.97fps; 1920*1080@59.94/29.97fps; 1280*720@59.94/29.97fps	
Network	1-channel RJ-45 interface, supporting 10M/100M/1000M adaptive Ethernet.  Standard configuration: IEEE802.3BT standard POE++ module (42V-57V wide operating voltage range)  1. Video formats: H.264/H.265/MJPEG.  2. Video resolutions:  3840*2160@60/50/30/25fps; 1920*1080@60/50/30/25fps; 1280*720@60/50/30/25fps; 640*360@60/50/30/25fps.  3. Network protocols:  RTSP, RTMP, RTMPS, Visca Over IP, ONVIF, SRT, NDI HX3, Dante AV-H.  4. Audio compression: AAC  5. Supports multi-stream output.  6. Supports Web UI, HTTP API	
USB	1-channel USB 3.0 Type-A (switchable between HOST and DEVICE)  1. Audio output: UAC (PCM, 48K, dual-channel).  2. Color space: RGB 420  3. Compatible with USB 2.0.  4. UVC 1.1 protocol.  5. UVC video formats:  •USB 3.0:  H.264/H.265/MJPEG: 3840*2160@60/50/30/25fps; 1920*1080@60/50/30/25fps; 1280*720@60/50/30/25fps; 640*360@60/50/30/25fps  NV12: 1920*1080@30/25fps  NV12: 1920*1080@30/25fps; 1280*720@30/25fps; 640*360@30/25fps;  •USB2.0:  H.264/H.265/MJPEG: 1280*720@30/25fps; 640*360@30/25fps	

## PBC-120F Technical Data 3-3

Model	PBC-120F
3G-SDI	Two channels of 3G-SDI, one for switch and one for full view, with audio output supported (PCM, 48K, dual-channel)
	1. Video resolutions:
	1920*1080@60/50/30/25fps; 1280*720@60/50/30/25fps
	2. i-frame resolutions (3G-SDI supports close up view): 1080i@60/59.94/50fps
	3. Supported broadcast TV resolutions (3G-SDI supports close up view):
	1920*1080@59.94/29.97fps; 1280*720@59.94/29.97fps
	Two channels of 12G-SDI (one BNC and one SFP+), with audio output supported (PCM, 48K, dual-channel).
12G-SDI	1. Video resolutions:
	3840*2160@60/50/30/25fps; 1920*1080@60/50/30/25fps; 1280*720@60/50/30/25fps
	2. i-frame resolutions:
	1080i@60/59.94/50fps
	3. Broadcast TV resolutions:
	3840*2160@59.94/29.97fps; 1920*1080@59.94/29.97fps; 1280*720@59.94/29.97fps
	One fiber optic network interface
SFP	One BNC interface for input only
GenLock	One BNC interface for input only
Time Code	One channel of Full NDI, (mutually exclusive with HDBaseT and SDVoE).
Full NDI	The video resolutions and formats are the same as those of HDMI
	One channel of SDVoE, (mutually exclusive with HDBaseT and Full NDI).
SDVoE (Optional)	The video resolutions and formats are the same as those of HDMI
	One channel of HDBaseT, (mutually exclusive with SDVoE and Full NDI).
HDBaseT (Optional)	The video resolution and format are the same as those of HDMI
	Two Audio-Input XLR Cannon sockets:
Audio	1. Phantom power supply.
	2. Support AAC/UAC.
	3. Sampling rates: 16k, 32k, and 48k.
	Can be restored by pressing the reset button
Factory Reset	One channel RS-232/422 (RJ45)
Control	Support Visca, Pelco-P, and Pelco-D protocols
	One channel Kensington Lock
Security Lock Slot	External TF card, MAX 2TB, setting by web UI
TF Card	Input: 100-240V, 50-60Hz, output: DC 12V, 5A
Power	
General	256
Preset Number	Power indicator, status indicator, dual tally lights
Indicator Light	English
Language	Upright, Inverted
Installation Method	Temperature: 0°C~+40°C; Humidity: 10%RH~90%RH
Operating Temperature	Temperature: -20°C~+60°C; Humidity: 10%RH ~95%RH
Storage Temperature	208.3mm*238mm*299.3mm
Dimensions (L*W*H)	≤5kg
Weight	Supported
Infrared Remote Control
